Best Practices of the Instituion

Professional Certificate Programmes: Professional Certificate programmes aim to keep pace with the emerging trends in higher education and to develop skills essential for career advancement in today's fast-paced business world. These short duration knowledge enrichment courses provide students to acquire skills in a specific area that relates to their field of interest.

Student Council: The student council is a representative body which works tirelessly to coordinate the activities of the college. Their role is pivotal and they focus on conducting the best fests and providing opportunities to students in college.

Cultural Activities : The college encourages students to hone and develop their skills in music, dance, art, literature, theatre and photography. Students are encouraged to participate in fests of various colleges. Training programmes, workshops, seminars, poetry slams etc are conducted for students to develop their talents. Associations which promote the same are Aloysius Business club, Kannada Sangha, Hindi Parishad, Hashmi Theatre Forum, E-cell etc.

Social Inclusion in Education: The College has a policy of social inclusion and implements it by giving preferential option for the poor, providing scholarships for deserving students and mid-day meal scheme for students in need.

Jesuit Education is unique: It carries an inimitable mark and derives its inspiration from Ignatius, the Educator. The Ignatian pedagogical paradigm is legendary as it helps students to gradually learn to discern and be selective in choosing experiences; to draw fullness and richness from the reflection on those experiences and become self-motivated by his or her own integrity and humanity to make conscious, responsible choices. St Aloysius College Harihar strives to provide ample scope for students to make these responsible choices. Jesuit education transcends academic mastery. It is value oriented and encourages realistic knowledge of the world in which we live. Above all, through such social activities, it prepares men and women for active involvement in society.

Community Service: Jesuit education helps students to realize that talents are gifts to be developed, not for self satisfaction or self-gain, but rather to be utilized for the good of the human community. Students are encouraged to use their gifts in the service of others, out of love for God. The objective of the outreach programme is to engage students in community service, instil in them a desire to serve, encourage them to think about society and motivate them to act and intervene in social issues.

Sports and Games: The college has a keen eye to spot and nurture potential sports students and to give them the right training and exposure to develop their skills. Students are encouraged to participate in sports and become part of the official college team.
